PECANS WANTED
Take your pecans to Guy Brunson in New Brockton. He will pay you top market prices. Phone 92 Nov 15-22-29 Dec 6-13 5c

Cotton Crop Only 75 Percent of 1955 Yield
A 1956 cotton crop of 790,000 bales is estimated for Alabama based on reports from growers and ginners as of Nov. 1. This is 15,000 bales below the forecast last month and compares with 1,945,000 bales produced in 1955. The 1949-54 average production in Alabama is 880,000. Yield per acre for the state, indicated at 373 pounds of lint as of Nov. 1, is well below the 1955 record yield of 478 pounds, but still significantly above the 10-year average. Estimated acreage for harvest at 965,000 is 8 percent less than harvested a year ago.

Weather conditions during October were favorable for picking cotton and by Nov. 1 picking was complete on many farms throughout the state. Indicated production is somewhat below last month for north and east central areas, but unchanged for other areas.

The United States Bureau of the Census reported 670,000 bales ginned prior to Nov. 1 this year.

This compares with 942,234 to the same date last year.

Winter Is Ideal Time To Control Fire Ants
TUBURN — Farmers who have great pleasure in showing us their trees and telling about their history. He said he has been raising satsuma trees for a number of years and has sold many dollars worth of fruit.

However, the freeze three years ago, which killed most of the figs in this section, killed his satsuma trees. He bought three \$3 trees and set them out three years ago. They bore a few figs the first year, were full of fruit the second year and this season they are it a 11y loaded down with juicy fruit. He said satsuma trees will stand as much or more cold than fig trees and are well adapted to this climate. He plans to dig up several peach trees in his yard and replace them with satsuma.

Mr. Dawkins has a large kumquat bush in his front yard. It is also three years old and well loaded with fruit in all degrees of maturity, ranging from the blossom to ripe fruit.

It was a revelation to learn that these two varieties of citrus fruits are so well adapted to this area. It caused Mr. Holland and me to go home with firm determination to set out some satsuma trees and kumquat bushes in our yards.

About People And Things

BY C. B. McDOWELL

GOOD WEATHER

Elba football principal was blessed with unusually favorable weather conditions for all of this season's five home games. No rain fell and it was not uncomfortably cold on any of the five nights.

In spite of the fact that the Tigers had considerable difficulty in getting into the win column, the attendance was surprisingly large. Supt. Sam J. Casey said he believes a check will show this year's home selections has been as large as last year and the year before when the Tigers were champs.

JESSE SMITH HOSPITALIZED
Jesse S. Smith was carried to Enterprise hospital last Tuesday where he underwent treatment for a severe abdominal trouble and heart ailment. It was reported Saturday that his condition was somewhat better and it was hoped he would be able to return home within a few days.

IN HOSPITAL
Oscar Vaughan, Sr. was carried to a Birmingham hospital Monday where he underwent a checkup to determine the cause of lung hemorrhages. Local physicians were undecided as to the real nature of his ailment. His many friends are hoping his trouble will not be diagnosed as serious.

HOME GAME ATTENDANCE
Elmer Taylor, principal of the Elba High School, has released the attendance figures for the Elba Tigers' five home games for the 1956 football season.

Opp. 3,000; Enterprise, 2,400; Hartford, 1,200; Samson, 1,200; Troy, 900. Total paid admissions were approximately 8,700 which was a record for the school. Last season when Elba was an undefeated and untied team.

CITRUS FLOURISHES
While passing R. D. Dawkins' store on the Kingston highway, Jimmie Holland called attention to a number of satsuma orange trees in the Dawkins' yard. We stopped to see them.

Mr. Dawkins is a man of huge physical stature and genial personality. He seemed to take great pleasure in showing us his trees and telling about their history. He said he has been raising satsuma trees for a number of years and has sold many dollars worth of fruit.

However, the freeze three years ago, which killed most of the figs in this section, killed his satsuma trees. He bought three \$3 trees and set them out three years ago. They bore a few figs the first year, were full of fruit the second year and this season they are it a 11y loaded down with juicy fruit. HERE IT IS! That brand new 1957 4-door Chevrolet that will be given to the top contestant in The Elba Clipper "School Bus" contest now going on. The car may be seen in the showroom at Dorsey Brothers Chevrolet, Inc. in Troy. It is a real beauty and it was hoped it would be able to return home within a few days.

Student council at Elba High School this year is composed of (l to r) Mrs. Bryan Taylor, Ricky Boswell, reporter and Charles Hayes, vice president; Patsy Parker, secretary; and Mrs. Boswell, president. (Clipper photo)

Corn Sheller Profitable for W. J. Smith
BY C. B. McDOWELL
I accompanied Jimmie Holland, Soil Conservationist, Friday on an informative trip through the rural districts of West Coffee County.

We first went to the W. J. Smith farm, located south of the Kingston highway. Mr. Smith, with his brother-in-law as assistant, was in the corn field, shelling corn with a power sheller.

Mr. Smith said by selling his corn in this way, it brings him over \$15 per ton more than if he would sell it in the truck. He said he had a 100 bushel power corn picker which he said did a satisfactory job in normal seasons. But the storm blew the stalks down over his power sheller.

Mr. Smith made a remarkable discovery in the field. He said he had harvested a bumper crop this year and none of the corn left in the field will be lost as he has plenty of hogs to clean up all of it.

Mr. Smith said he bought 140 acres of what he called "throw away" land. It was not being cultivated and most of what was in the ground was corn. He said the corn was completely covered with Bermuda grass. By discing time after time, he eliminated the Bermuda almost completely on 50 acres of land suitable for cultivation.

Mr. Smith said he had the Elba Clipper about the advantages of parallel tilling. He said he had a 100 bushel power corn picker which he said did a satisfactory job in normal seasons. But the storm blew the stalks down over his power sheller.

Mr. Smith made a remarkable discovery in the field. He said he had harvested a bumper crop this year and none of the corn left in the field will be lost as he has plenty of hogs to clean up all of it.

He said the corn was completely covered with Bermuda grass. By discing time after time, he eliminated the Bermuda almost completely on 50 acres of land suitable for cultivation.

Elba Tigers Lose to Troy But Perform Well
The Elba Tigers went down to defeat Friday night at the hands of a fair-sized crowd. Two busloads of children from the Baptist children's home helped to swell the crowd on the visitors' side of the field. The Tigers closed out the 1-0 score at Ashford Friday night.

The Trojans wasted no time in picking up their first TD as Wallace Huggins, Troy's outstanding quarterback, faced over the goal line from the four yard line in the first period. At this point it looked like the Tigers might be in for a regular massacre, but their defense tightened and from then on neither team scored. The half ended at the count of Troy 6, Elba 0.

It was not until late in the third quarter that the Trojans were able to penetrate the Tiger line. The Tigers were unable to go anywhere through the Troy line. So John Frank Hudson got off one of the longer and best placed punts ever traveled more than 60 yards and finally came to rest on the Troy 10 yard line. From there the Trojans scored a drive with the help of a 20-yard jaunt. The other half of the Dozier twins, Carl, scored the final TD in the fourth quarter. The Trojans, who had the high-powered offense, were held to a 12-0 victory. Mr. Smith said he was very disappointed in the loss.

News Tidbits
"UNCLE EDD" LEE LIL
"Uncle Edd" Lee was taken to Enterprise Hospital last Thursday where he underwent treatment for a severe bronchial ailment.

His daughter said Saturday that her father's condition was somewhat improved and it was hoped he would be able to return home soon.

FEARS & FIGS IN NOVEMBER
Clipper readers continue to report abnormal fruit crops caused by the unusually late fall weather which has prevailed in this area.

Anna M. Young, Elba, Rt. 4, sends in a twig loaded with good sized pears. She also said she had a crop of November figs.

Lee English Has New Crop Rotation Plan
W. Lee English announces he has set out a measured acre of onions. The rows are two feet apart and the plants are five inches apart in the rows, making 44,000 onions in the field. They will be cultivated with a tractor.

Mr. English said he plans to market the onions, tied up in bunches, before they make mature vegetables. The onion crop will be followed with sweet potatoes. He said he believes both crops should be more profitable than cotton, peanuts or corn.

TAPPED
Announcement was made at Auburn recently that Milan B. Morrow of Elba is one of the six under graduate students in civil engineering at APT tapped for membership in Chi Epsilon, national honorary fraternity.

The Troy and Elba bands put on a good halftime demonstration. The Troy band put on a new formation drill. A humorously new quiz with prizes being given to the students who answered the most questions correctly.

Stores Closed 1 Day

Stores in Elba will be closed only Thursday (Thanksgiving) of this week, Walter Smith, chairman of the Chamber of Commerce Merchants' Committee, announced. All stores in Elba have indicated they will be open during normal operating hours Friday and Saturday.

AROUND THE FLOWING WELL

By Paul E. Cunningham

WOOD STOVE OVENS cook better, I have heard some say recently, not being so subject to boil water without burning. I never entered into one. But Friday morning I happened to be in Daughtry's Cafe when Mrs. Daughtry poured a batch of biscuits out of her wood cook stove and I really got a treat.

Mrs. Daughtry says a wood stove oven makes a better biscuit and doesn't dry it out as much as the electric. Whatever the cause, the results are good. Biscuits like that are the reason many a man has lost his "Y" in his pants.

Put a couple of eggs, piece of sausage or bacon and a serving of grits with the biscuits which can be topped in some of Ocie's fresh cane syrup and you have a good South Alabama breakfast. A man can go out and do a day's work on vittles like that.

TWO OF THE FOLKS busy commuting National Education Week last week were Ricky Boswell and Supt. S. J. Casey. Ricky falls her to all the poster work at the high school. It seems that a little overtime getting them drawn up. Mr. Casey hurried a write up down to the Elba Clipper Monday morning. It's good that he got the copy here early. With the typesetting and machine going on the Fritz on Tuesday, we left out nearly as much copy as we put in. We'll try to get it all in this week.

THAT ENGLISH AGENCY now heard around The Flowing Well is the real McCoy. My father-in-law, C. P. Whiteley, from Sheffield, England is visiting us for a time. I don't believe he has any more trouble and understanding this South Alabama draw than these South Alabama boys have grasping his English accent.

Only thing is that he has an advantage over folks here. With having been an avid reader of The Elba Clipper for the past six years he says he knows about "those Tigers", the Martens, Smith's and others who have made news a few years ago. One of the first things he wanted to know was if the Mulberry Heights School had received its telephone yet.

COOT RHODES reported he narrowly escaped running into the city police car early Sunday morning two weeks ago. Coot was up before daybreak. Coot said he was at the Toy Dyes corner when he about collided with the police car which was cruising without its lights on.

Football Puts Out Lights in West Elba
A large number of homes in West Elba were without electric current for several hours Sunday afternoon and evening. And a kicked football was the cause of it all.

A group of boys were playing football on West Plant Avenue and one of them kicked a field goal, the pylon kicking among some wires, causing them to touch each other.

A display of pyrotechnics ensued and a fuse in a large transformer was burned out, cutting off current in the whole neighborhood.

As all the city's electric trouble shooters were out of town at the time, there was a lot of fiddle phoning calls and car trips. It was well treated and the fuse replaced.

What is more lifeless than a dead electric wire? And what is more exasperating than a blown fuse? We don't appreciate our electric appliances until some mishap causes them to go dead.

RUDOLPH HERRING BETTER
Rudolph Herring, well-known Troy Tiger band put on a truck line operator of New formation drill. A humorously new quiz with prizes being given to the students who answered the most questions correctly.

Christmas Seal Sale Starts
L. S. Rainer Jr., 1956 Christmas Seal chairman for Elba, announced today that over 1920 Christmas Seal letters were sent to Elba residents last week.

Mr. Rainer said the Christmas Seal sale is the only 100 percent voluntary contribution the public is asked to make each year in an effort to stamp out tuberculosis, a dreaded killer.

The public is reminded, said Mr. Rainer, that Christmas Seal dollars go a long way to fight TB. They buy health education, case finding, legislative protection and from the sanatorium for indigent patients, plus many other services.

Now that Amendment No. 3 has been approved, Mr. Rainer added that we will have a place to care for TB patients in this state. One hundred new beds will be added to Montgomery TB sanatorium where a blown fuse is asked to give TB patients the best efficient hospital care to persons who need hospitalization.

Another reason to buy Christmas Seals, Mr. Rainer stated, is that in Alabama there is no compulsory X-ray or hospitalization law. Such a law has been in many states to be a great weapon to fight TB. It is the cases that go undetected.

Hospital Board Appointed

D. B. Adkinson was appointed as a member of the City Police Department when the Elba council held a special meeting Friday night, Nov. 16. He replaces Ocie Daughtry who resigned.

Salary of Mr. Adkinson was set at \$2,700, the same as was being received by Daughtry. The new patron saint served as a member of the Elba Police Department for more than a year. Mrs. Ocie Daughtry, wife of the late Sheriff H. D. Tillman, was appointed as a member of the Elba Police Department. She is a past president of the Elba Elks Club and a member of the Elba Elks Club.

Bowdoin in Blue-Gray Tilt
Jimmy Bowdoin, son of Mr. & Mrs. Cecil Bowdoin, and former Elba Tiger football great, has been added to the roster of the Blue-Gray football team. He is a member of the Elba Elks Club and a member of the Elba Elks Club.

Strong Quintet at Kinston
For many years Kinston High School has been a strong basketball team. This season seems to be no exception. They started the 1956-57 season by rolling up 106 points against High. They followed this with an 82-62 victory over a strong Paxton team.

Kinston is decidedly basketball-minded and has sent more teams to annual state competitions than any other school in Southeast Alabama during the past 25 years. Their schedule, which means (Kinston) Nov. 27 — Pleasant Home here Nov. 30 — Ozark here Nov. 7 — Straugh here Dec. 11 — Opp here Dec. 18 — Elba here Dec. 21 — Paxton there Jan. 4 — Abbeville here Jan. 11 — Hartford here Jan. 18 — Enterprise here Jan. 25 — New Brockton there Jan. 28 — Eufaula here Jan. 29 — Dothan here Feb. 1 — Elba there Feb. 5 — Eufaula there Feb. 8 — New Brockton here Feb. 12 — Enterprise here Feb. 15 — Dothan there Feb. 22 — Ozark there

2—Henry, J. C. Bowden, Samson.

Winford Miles

Winford Miles, son of Mr. & Mrs. G. M. Miles, Rte. 2, has been a lot of service in the starting lineup in the Tiger's games this season. He has made a good record at right guard. He is a junior and is counted on to be a regular member of next season's squad. His weight is 160 pounds and his jersey number is 11.

STEWARDSHIP REVIVAL
The public is invited to attend the Stewardship Revival at the First Baptist Church Sunday, Wednesday, Nov. 25-28. Services will be held Sunday at regular hours and Monday-Wednesday at 7 A. M. and 7 P. M.

THANKSGIVING SERVICE
A union Thanksgiving service will be held at the Elba Methodist Church Thursday morning at 8 o'clock. Rev. M. L. Seay of the First Baptist Church will deliver the sermon.

IN LAST HOME GAME—

Andalusia Falls Before Tiger Gridders

(Last Week)
Playing greatly improved football over that shown early in the season, and on about a par with that shown at Geneva, the Elba Tigers defeated the Andalusia Bulldogs on their home field by a one touchdown margin, Friday, Nov. 9. Final score was 20-12.

The Tigers scored their third win of the season against five defeats. They have lost to Luverne, Opp, Enterprise, Samson and Geneva but won from Hartford, Florida, and Andalusia.

The Bulldogs went out in front in the initial period when they staged a sustained drive culminated by a plunge by Leslie Walker from 2 yards out. Cabert Mills rammed over for the extra point and Elba led 7-0 at the end of the quarter.

The Bulldogs were put back in the game when Holmes made a 60-yard sprint in the second quarter, crossing over the goal line standing up. The try for extra point was no good and the score was 7-0.

It looked like the game might be decided by a one point margin but with only 30 seconds remaining Jimmy Boswell scored the final Elba marker when he ran the option play for four yards. A 35-yard pass play from the Tiger to Walker set up the scoring play. Walker bucked for the extra point and the score was 20-12.

It was a closely contested fracas all the way with the Tiger forward wall deserving much credit for holding the Bulldogs in check most of the time. The Tiger ball carriers also received good blocking and hole-opening on offense play.

Outstanding linemen for Elba were Haynes, Griffin, Hudson, Storey, McCollough, Morris, Shaddix, Taylor, Casey, Corbett, and Stewart. In the backfield Boswell, Walker, Jacobs, Mills, Prescott, Wise and Brunson did well.

Mr. & Mrs. C. Y. Martin had as their guests Sunday, Mr. & Mrs. Fred Martin and little daughter Pamela of Panama City. Mr. & Mrs. Levi Throver and children, Mike, Ann and Jim of Duhan and Mr. & Mrs. Bill Martin and Tony and Mr. & Mrs. Charles Martin.

Mrs. C. E. Harris of Oakfield, Ga. is spending some time in the home of her daughter, Mrs. Paul Hobbs and Mr. Hobbs.

Mr. & Mrs. C. E. Kelley announce the birth of a son at Mizell Memorial Hospital in Opp on Nov. 17 whom they have named Edwin Boyd.

Guests in the homes of Mrs. J. W. English and Mrs. Elwood Taylor last week were Mrs. A. C. Courson, Mrs. Joe Courson and daughters, Joy and Ann of Stuart, Fla. Mrs. English also had as her guests Mr. & Mrs. Mandy Robertson of Ft. Payne.

Mr. & Mrs. Fox Brunson are spending the Thanksgiving holidays in Mobile with their son Fox Brunson Jr. and family.

Ann Kendrick Is Named to Honorary
Ann Kendrick, a sophomore at Alabama Polytechnic Institute, was recently tapped into Alpha Lambda Delta, the national scholastic honorary for freshmen women. A 2.5 average must be maintained during the freshman year to be eligible for membership. Ann, a former resident of Montgomery, now lives in Elba.

She is also a member of Zeta Tau Alpha social sorority, the Phi Kappa Phi Honor Society, and the Tau Alpha Phi Honor Society. She is also a member of the Phi Kappa Phi Honor Society, and the Tau Alpha Phi Honor Society.

Ann is the daughter of Mrs. John Kendrick and the late Mr. John Kendrick of Elba. Her fraternal grandparents are Mr. & Mrs. J. W. Kendrick of Elba and her maternal grandmother is Mrs. Almon Strain of Elba.

County Goes Over Top in Bond Sales
Sam Sawyer, Coffee County chairman of the U. S. Savings Bond program, has received a treasury award for outstanding patriotic service to the bond program.

The "100 percent" Medallion is in recognition of this county's having achieved its 1955 sales goal of \$250,000. County sales for the year totaled \$251,771.50 in Series E and H Savings Bonds.

The award was presented by W. C. Russell, area manager for the Treasury's Savings Bond Division. He praised the efforts of Mr. Sawyer and other volunteer workers who made the achievement possible.

READING HABIT GET THE CLIPPER
The family of Mr. C. O. Miller wishes to express their sincere appreciation to all of your business friends for their patronage and many courtesies extended to us not only during the sickness and passing of our loved one but during the past years. You have been good to us and we gratefully acknowledge it.

All that you have done will be gratefully remembered.

SOCIETY - NEWS - SECTION

MRS. J. D. WHITMAN

Society Editor

B. W. C.

The B. W. C. met Monday night in the home of Mrs. J. D. Whitman for their regular Mission Study. A delicious evening meal was served before the program.

The invocation was a solo "Bless This House" by Mrs. Corinne English.

Plans were made to prepare a Thanksgiving basket for a needy family. The devotion was by Mrs. J. D. Whitman. The Mission Study was taught by Mrs. J. D. Kendrick and the meeting was dismissed by a prayer by Mrs. G. P. Miles.

Present were Mesdames G. P. Miles, William Ballard, J. D. Whitman, Corinne English, J. W. Kendrick, Gusie Hutcheson, Oswald Dowling, Neal Hutto, and Misses Gladys Clark, June Rex Jones and Edwin Boone.

GRADUATES FIRST STUDENT IN 1927

Kinston School Proud of Its Graduates

BY E. C. NEVINS

The Kinston community has been interested in good schools since the first community in the county to vote the three-mill district school tax. A school has been located at Kinston since the early days of the present century but it was in 1927 that the school graduated its first student — Miss Beatrice Redsole. Since that time the story of Kinston High School has been one of growth and progress. More than 500 students have been graduated and have gone into all walks of life. An unbelieveably large number of these have become medical doctors. Out of the class of 1935 with only 19 members, two became physicians — Dr. R. E. Williams Jr. and Dr. George T. Perry. Without exception the graduates of Kinston High School have been successful in their many lines of work and have been a credit to the community in which they have lived.

Last May 32 seniors were graduated. Nine of these already have entered college — others plan to enter later. This modern progressive rural high school is one of the best equipped in the state. Throughout the years each senior class has striven to "out-do" all others in securing valuable gifts for the school. Much of the school equipment has come from this source. The patrons, too, have been generous in their aid in any worthwhile project. Through careful selection a faculty of specialists has been maintained to insure proper instruction of the students. Practically all of the teachers have done graduate work and are highly qualified. The Kinston High School library is one of the finest in this section of the state. Though the school is proud of its many-fold activities and accomplishments, it is proudest of its scholarship, its good name and sportsmanship. For many, the word Kinston is synonymous with basketball. It is true that Kinston teams have represented the Second Athletic District at the state basketball tournament at Tuscaloosa 13 times. No better basketball players have come out of South Alabama than Huey Roberts and Red Free. Although Kinston is an "A" school in size, it plays "AA" basketball — the only school in the state to play out of its class. The Kinston chapter of FFA is one of the most active in the state. It is famous for its summer trips which have carried its members from the Atlantic to the Pacific and from the Gulf of Mexico to Canada. This chapter has produced four state officers since 1946. Kinston's Thespian club is one of the best-known in the state. Ours is one of the few schools in South Alabama which receives an annual invitation to the Drama Festival at Montevallo. This Club sponsored a trip to New York last summer to study Broadway Play Production. Other clubs and organizations in the school are active and outstanding. Last summer Kinston's FFA sent a representative to the national convention held in Chicago. The Beta Club sets the spirit for the school and is a most active organization. The

HOUSEHOLD SCAPBOOK

By Roberta Lee

Trousers
When pressing trousers, turn them wrong side out, dampen knee thoroughly and allow to dry for 30 minutes; then press knee dry; this will take out the crease and allow cloth to shrink properly. Then dissolve equal parts gum arabic and gum tragacanth in 1-2 pint hot water and shake until dissolved. Turn trousers and moisten a strip about 2 inches wide down the leg. Turn right side out and press with hot iron until dry. The crease will hold for a long time.

Clothing Mirrors
Mirrors cloud so easily in the summer weather, but they need not be washed each time they happen. A perfectly dry clean cloth will remove that clouded appearance if the mirror is clean underneath.

Keeping Poultry
Keep poultry cool. It is a highly perishable food. When you get a chicken or turkey from the market, wash it thoroughly

inside and out, dry well, and then store in the refrigerator until time to cook.

Sticky Windows
If your windows do not run up easily, rub some paraffin on the window cords, or on the runways, and you will notice an improvement.

Cleaning Panama Hats
Panama hats may be cleaned very successfully with cold water, a clean sponge, and some white soap. Place the hat on a clean surface and wash it thoroughly; then rinse in clear cold water to remove the suds and wipe with a dry cloth. Go over the hat and reshape it with the hands.

Easier Washing
The easiest way to wash a bean pot or badly stained casserole is to put a handful of borax into it, fill with hot water and stand in the oven for a while. The borax will wash right out after this soaking.

Only sound, dry, yellow corn should be used in preparing a broiler mash. And not more than a week's supply should be prepared at one grinding. The average American uses 26 pounds of corn per year.

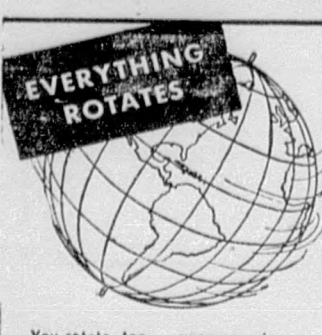

Donald W. Reddock

Scheduled to return to Norfolk, Va. Nov. 17 aboard the oiler USS Nantahala is Navy Chief Machinist Mate Donald W. Reddock of Elba. The ship has been operating with the 6th Fleet and units of allied navies.

ROY R. FOREMAN

Specialist Semond Class Roy R. Foreman, whose wife, Hilda, and mother, Mrs. Ethelene Boyden, live in Elba, recently was graduated from the Army's Artillery and Guided Missile School at Ft. Sill, Okla. Specialist Foreman completed the artillery radio maintenance course. The 16-week course covered radio and electronic fundamentals. Foreman, who entered the Army in November 1953, is a 1953 graduate of Elba High.

Only sound, dry, yellow corn should be used in preparing a broiler mash. And not more than a week's supply should be prepared at one grinding. The average American uses 26 pounds of corn per year.

You rotate, too... upon an axis, just like the earth! Your body is the axis around which your life revolves. A healthy body makes you to move easily, uninterfered, so that you can perform your daily chores efficiently, contentedly. Poor health generates nothing but misery... the axis, your body, needs repair. Our sole concern is that you stay on a smooth and steady round of good health. See your doctor twice a year.

Sealed TIGHT for SAFER Storage!

COLUMBIAN RED TOP GRAIN BIN

22 NEW, Improved Features

Tightest, safest storage you can buy... better than ever before! Sealing strips especially made for all laps and seams. Self-sealing, steel-backed Neoprene washers for all bolts. Side sheets sealed to door frame with moulded gaskets. Gulating compound for perfect bottom seal. Galvanized door frame assembled and sealed at factory. Asphalt snow barrier around roof cap. Driving rain, snow can't get in; fumigants can't get out. Auger opening, slide gate and chute (adjustable to any height), and big 28-inch wide scoop box. More weight for greater strength, extra corrugations for rugged service. Easy to erect; last 15 to 30 years. COME IN... See the tightest and strongest of all bins.

My recipe's the same as with rubarb pie—use all the sugar you can, then double it!

Tom C. Bradshaw Dies at His Home
(Last week)

Tom C. Bradshaw, well-known resident living about two miles east of Elba, died Tuesday at his home after a brief illness. He had many friends who mourn his demise. He was 73 years old.

Survivors include six sons: L. C. F. T. C. H. J. W. E. M., and M. C. Bradshaw, all of Elba; four daughters, Mrs. Bob Phelps, Mrs. Myrtle Strickland, both of Enterprise; Mrs. Grace Lawford, Elber; Mrs. C. O. Miller, two brothers, Dave Bradshaw, New Brockton and Daniel Bradshaw, New Brockton.

Funeral services were held Wednesday afternoon at 2:30 from the Assembly of God Church in New Brockton with Elder Dan DuBoise officiating. Burial was in New Brockton cemetery with Hayes Funeral directing.

CARD OF THANKS
We wish to express our appreciation and thanks for the many acts of kindness shown us at the time of our recent bereavement, the passing of our husband and father, C. O. Miller. Mrs. C. O. Miller, Mr. & Mrs. Leroy C. Miller, Mr. & Mrs. Foy E. Spurlin

Soil Conservation News

We are entering the terracing season. There are many fields in West Coffee County that need terracing. Many old systems do not fit the land and use of modern machinery. Parallel terraces outleaked on soil waterways fit the land. They also aid in ease of cultivation.

FEW VOTES TO DECIDE OUTCOME

Clipper Contest Leaders Closely Grouped

Booming along on the wings of enthusiasm and with the stamp of public approval already placed upon it, this big "Everybody Wins" prize subscription contest is rapidly assuming big proportions. We welcome the ever growing number of new subscribers now being added to our lists and also thank the regular readers who are taking advantage of this money-saving opportunity to receive their subscriptions at the special reduced rates now in effect.

The contest, hard-working contestants, without exception, are meeting with gratifying success on every hand in their quest for subscriptions (the points issued on each prepared order of course, indicate the winning of votes for them) and this newspaper appreciates the response shown by the people of this area in the subscription drive.

The encouragement this extended to the fine participants spells SUCCESS in large capital letters for this annual enterprise and by the same token will enable us to serve better in every way the general interest of the entire community.

WEEKLY PAYCHECKS
It is our pleasure each week to issue substantial commission checks to the various contestants and in due course the aggressive ones will reap their greater rewards in the form of rich prizes and the big money awards in accordance with the outcome of the contest. In the opening announcement of the contest.

So far the race has been a remarkably close one between several contestants and therefore much depends upon the RESULT obtained this week - while it is still possible to get BIG "first period" votes on the subscriptions, therefore, our best advice to win is put forth their supreme efforts NOW.

NO QUITTERS HERE
Contestants, you are off at the post and the pace is growing hot. Your courage and ability have been demonstrated. Can you finish as strong as you started with the best talent and keenest wit in this area pitted against you?

If we are any judge of people and we believe we are, the unusual type of people who are competing in this race are anything but quitters. Surely the winners of such major prizes will be entitled to admiration for their desire to succeed, by the same token, highest commendations will certainly be due those who don't give up but fight to the finish.

AT WESTERN AUTO ASSOCIATE STORE
Glamorous 1957 Frigidaire appliances with an exciting new look were unveiled this week by Western Auto Associate Store in Elba.

Household refrigerators, electric ranges and upright freezers have been designed by leading engineers and General Motors stylists to build in or blend in to fit into nearly any kitchen arrangement and color scheme.

"The new appliances have a completely new and different look were unveiled this week by Western Auto, declared, "The clean, squared-up lines so popular in today's architecture and functional interior design are highlighted in these new products."

He pointed out that styling experts are predicting that this new trend in appliance design that will sweep the country in chain reaction fashion.

The 1957 Frigidaire appliances are styled and designed so that the homemaker can have a kitchen with a built in look without necessarily making expensive room and cabinet alterations when new equipment is installed.

The thrilling new squared up styling makes it possible for the appliances to blend into a kitchen with building-block simplicity. Mr. English emphasized.

Frigidaire's 1957 appliances come in a provocative array of exterior colors. For the first time, the appliances are available in a new sophisticated "charcoal" gray as well as the fair pink, Stratford yellow, Sherwood green and Snowcrest white.

There are 12 new refrigerator models with capacities from 8 to 14 cubic feet designed for true kitchen or family budget. All models have newly designed recessed doors to accentuate the built in look and fit snugly with adjoining cabinets in the kitchen. Doors of all models can be easily opened from the inside - thanks to an

exclusive new safety latch and an air-cushioned door.

A new modular design concept also has been incorporated into refrigerators this year. They are built on a four-inch modular in 24, 28 and 32 inch widths.

There are many other thrilling new ideas incorporated into these fashionably styled appliances. For example, there is a new lever-operated, built in ice ejector on freezer door of one model and in the bottom freezers of others. The homemaker has only to slide a tray of ice into the drawer, pull the lever and cool, dry ice cubes cascade into a

storage bin ready for serving. A completely new idea in de-Parmentized food storage is being introduced in Frigidaire's new refrigerators. There are special temperature zones for the various types of fresh and frozen foods, fruits and vegetables.

VENETIAN BLINDS
Lindsey - Thomason.

USE THIS OIL TO STRETCH GASOLINE MILEAGE

By minimizing friction and carbon deposits inside your engine, Cities Service 5-D Koolmotor actually stretches gasoline mileage as much as 10%!

And, meanwhile, it provides the greatest protection against engine wear... for this one motor oil does the work of several ordinary oils. For quick cold-engine starting, it provides light 10W oil performance... For warm-up, medium 20 oil performance... And for warm-engine cruising, the heavy 30 oil performance you need to prevent excessive friction.

Stop in and change to 5-D Koolmotor Oil this week!

Hot Race on in Contest for 1957 Chevrolet

More general and concerted efforts during the remainder of the contest have been made by the contestants - as to whom will ultimately be the winner of the grand prize. The contest is now in its final stages. The grand prize is a 1957 Chevrolet. The contest is now in its final stages. The grand prize is a 1957 Chevrolet.

About People And Things

BY C. B. McDOWELL

COLD IN MIAMI TOO
My wife, son, Roy, and daughter, Mrs. Mary Newton, and I left Elba Thursday (Thanksgiving) morning at 2:45 o'clock with the northwest wind howling and the temperature sliding. Our destination was Miami, Fla. where the residents boast about the Gulf Stream and sunshine making ideal winter warmth.

I had been bragging about going to Miami to spend Thanksgiving and escaping the cold wave that the weather bureau had been predicting for Alabama.

The northwest wind accompanied us all the way to Miami and continued to blow during our three day visit. Heated rooms were as necessary as they were in Elba. We happened to "bust" right into one of those rare northwesterly waves in Miami.

The weather bureau broadcast weather bulletins every hour, day and night. Frost and possible ice were forecast for Saturday morning in the winter vegetable area around Lake Okeechobee. This would have played havoc with the bean crop which was being picked by a multitude of itinerant workers.

Fortunately, the wind shifted to the northeast during the night, and the frost did not materialize. However, a second cold wave was predicted for the territory Monday morning.

We had an enjoyable visit at the home of our son, D. K. McDowell, and family, but a planned fishing trip to the keys for Saturday morning was "frozen out" much to the disappointment of myself and two sons, especially Roy.

I learned a long time ago not to put much dependence on the weather in South Florida, summer or winter. It is very tricky. But in spite of the weather, we did a lot of cruising around and saw that Miami and Miami Beach are still growing at a tremendous pace. Among other things we saw Dorsey High School. It is one of the South's largest colored high schools.

Participants realize that the big prize - tremendously valuable and extremely hard to get - is the 1957 Chevrolet. The prize is not merely hope for success, but know how to carry out the mandates of ambition.

The next published list of standings will be printed in the next week's issue.

School Organized at Zion Chapel in 1938

BY BILL DAUGHERTY

Our school, in its present location, began its services in 1938. Since that time there has been a continuous effort on the part of the school and community to expand and extend the services rendered by the school.

Through the years, the one purpose motivating this school has been the greatest good for the greatest number of students. To this end, we have devoted time, effort and money. This has been true not only on the part of the school faculty but on the part of a very interested and industrious group of patrons.

We are proud of our school and our parents but most of all we are proud of what this institution has meant in the lives of students who have gone through school here and on out into life.

The graduates of this school are to be found in many walks of life and are performing their jobs creditably. Some are preachers, nurses and teachers. Many have jobs in government service and is a mayor of a town in the southern section of the state.

As has already been stated, the consuming purpose of this school is to help children and most desire.

Not to do so means that you will have to redouble your efforts during the remainder of the race to make up for lost opportunity. Just a good bunch of "full limit" subscriptions NOW might be the very ones needed to "clinch" that beautiful 1957 Chevrolet worth \$2,320 grand capital prize; they could hardly help but win one of the grand prizes or big cash bonus awards.

ENTER PERSONAL PRIDE
The student who enters the contest is not merely a participant but a contender. He is not merely a participant but a contender. He is not merely a participant but a contender.
